Type 1005P Commercial Gauge

Shown with
Optional Rubber Boot

FEATURES

- **Corrosion resistant ABS case**
- **Now available in 1½" – 3½" sizes in both lower and back connection.**
- **New panel mount conversion kit allows user to transform a back connect gauge into a panel-mount gauge.**

The essence of Ashcroft Type 1005P gauges is attractive styling, a technically superior design, durable construction and economy.

The core of the Type 1005P gauge is the patented PowerFlex™ movement. This movement has been thoroughly tested and proven to be more resistant to shock, vibration, and pulsation than conventional movements, thus ensuring a more accurate, dependable, long-lasting gauge.

True Zero™ indication, a unique safety feature standard on these gauges, is the accurate indication of zero pressure being applied to the gauge. In addition to the increased safety benefits, this means reduced inspection and manufacturing costs for you and your customer.

For added versatility the new panel mount conversion kit, ordered as an accessory, allows the user to convert the 1005P back connect gauge to a panel mount gauge. Gauge installation and replacement is easy with the panel mount conversion kit. Simply push the gauge in to install or push the gauge out to uninstall (not possible to uninstall 1½" gauge).

COMMONLY USED ON

Compressors, filter regulators, fluid power equipment, medical equipment, pool and spa filters, automotive diagnostic equipment, beverage dispensing equipment, industrial machinery, a variety of other applications

PRODUCT SPECIFICATIONS

Ashcroft Model No.:	1005P
Sizes:	1½", 2", 2½", 3½"
Case:	Black, ABS
Window:	Polycarbonate
Dial:	Black figures on white background, aluminum
Pointer:	Black, aluminum
Bourdon Tube:	C-shape bronze (2"–3½", vacuum–600 psi and compound; 1½", vacuum–1000 psi) Helical bronze (2"–3½", 1000–6000 psi)
Movement:	PowerFlex™ with polyester segment
Socket:	Brass
Restrictor:	.013" orifice throttle plug in gauges 1000 psi and above
Accuracy:	ASME B40.1, Grade B, ±3-2-3%
Connections:	½" and ¾" NPT, lower and back (1½" not available in ¾" NPT)
Ranges:	1½" Vac-1000 psi only 2", 2½" Vac-6000 psi and compound 3½" Vac-6000 psi and compound
Operating Temp.:	–40°F to 150°F, –40°C to 65°C

OPTIONAL FEATURES

Case:	Panel mount conversion kit (XUC), ordered as an accessory kit Case color (other than black) Vent hole
Pointer:	Adjustable Min/max assembly
Movement:	Flutterguard™
Socket:	Non-standard length or thread Throttle plugs – 0.007", 0.013", 0.020", 0.063", Nickel plated, Teflon taped, Top or side connection
Dials:	Customized Non-standard ranges Receiver ranges – 0/100 linear 0/100 percent 0/10 sq. root Aluminum (for added corrosion resistance)
Others:	UL 404 and 252A listing for compressed gas service Bulk packaging Black Rubber Gauge Boots for lower connect gauges

HOW TO ORDER (Typical example)

	20	W	1005	P	H	02L	XAP	400#
Dial Size: 2"								
Movement: Patented PowerFlex™								
Case Type Number: 1005P								
Case Material: ABS								
Socket Material: Brass								
Connection Size/Location: ¼ NPT Lower								
Option: Adjustable Pointer								
Range: 0/400 psi
