

The **DEETER** Group®

40 Series Horizontal Liquid Level Sensor

- Horizontally mounted miniature liquid level sensors designed for internal or external tank mounting.
- The design provides for a cost effective solution where high reliability in a demanding environment is called for.
- Available in PVC, Polypropylene, PPS and Nylon materials to permit use in most chemical and temperature environments.
- By rotating the body through 180° it is possible to sense for high or low conditions.
- This design is ideal for food, automotive, petroleum, chemical and laboratory applications.
- Available with form A (SPST) or form C (SPDT) contacts.
- The weight of the sensor is approximately 35g.
- A 1 meter PVC cable is provided as standard, for custom cable lengths, contact sales office.

Technical Data

	PVC	Nylon	Polypropylene	PPS
Minimum liquid Specific Gravity	0.8	0.7	0.7	0.9
Maximum Pressure	2 bar	2 bar	2 bar	2 bar
Operating Temperature	-20°C to +65°C	-20°C to +80°C	-20°C to + 80°C	-20°C to +125°C

The DEETER Group®

40 Series Horizontal Liquid Level Sensor

Switch Contact Ratings

Form A switches are rated at 240v AC/DC, 1.0 Amp resistive load only.

Form C switches are rated at 60v DC, 0.25 Amp resistive load only.

For other loads i.e. capacitive, inductive or incandescent lamps please contact Deeter for advice.

For AC circuits ensure the peak voltage x current does not exceed the power rating.

All PPS switches have 7/0.2 PTFE insulated wires.

PVC, Nylon and PP form A switches have 16/0.2 PVC insulated wires.

PVC, Nylon and PP form C switches have 7/0.2 PVC insulated wires.

Fixing

	Hole Size	Torque	Wall Thickness
M16 external mount	23mm	2.7Nm	6mm max
M16 internal mount	16.5mm	6.8Nm	10mm max
Internal 3/8" NPT	To suit	6.8Nm	16mm max
External 1/2" NPT	To suit	6.8Nm	12mm max

Caution: NPT threads are specified in their reference size.

This size does not refer to the physical thread diameter.

Ordering Code

Example:

DE43-50A01 = 40 Series, Material Nylon, M16 internally mounting thread, Form A SPST, 50 Watts float switch.

All electrical equipment should be installed by a qualified/certified electrician.

The Deeter Group follows a policy of continual development of its products and reserves the right to change specifications and/or features without notice.
